I summarize reasons for liking the **The Who's** version.

I give **Bad Sequence** the last word.

Reasons to Prefer **The Bad Sequence Version**

Reasons to Prefer **The Bad Sequence Version**

1) Note the contrast:

Reasons to Prefer **The Bad Sequence Version**

- 1) Note the contrast:
 - a) **The Who's** version, once you listen to it, is creepy.

Reasons to Prefer **The Bad Sequence** Version

- 1) Note the contrast:
 - a) **The Who's** version, once you listen to it, is creepy.
 - b) **The Bad Sequence** version, once you listen to it, is fun.

Reasons to Prefer **The Bad Sequence** Version

- 1) Note the contrast:
 - a) **The Who's** version, once you listen to it, is creepy.
 - b) **The Bad Sequence** version, once you listen to it, is fun.
- 2) I know the names of the singer, backup singers, and even the writer of **The Bad Sequence** version. For **The Who's** version, I had to look all that up on ChatGPT

Reasons to Prefer **The Bad Sequence** Version

1) Note the contrast:

a) **The Who's** version, once you listen to it, is creepy.

b) **The Bad Sequence** version, once you listen to it, is fun.

2) I know the names of the singer, backup singers, and even the writer of **The Bad Sequence** version. For **The Who's** version, I had to look all that up on ChatGPT and it got kept telling me **Who's on First** since I had just used it to do the other HW problem.

Reasons to Prefer **The Bad Sequence Version**

- 1) Note the contrast:
 - a) **The Who's** version, once you listen to it, is creepy.
 - b) **The Bad Sequence** version, once you listen to it, is fun.
- 2) I know the names of the singer, backup singers, and even the writer of **The Bad Sequence** version. For **The Who's** version, I had to look all that up on ChatGPT and it got kept telling me **Who's on First** since I had just used it to do the other HW problem.
- 3) All of the members of **The Bad Sequence Band** know Ramsey theory, and one member is an expert.

Reasons to Prefer **The Bad Sequence** Version

- 1) Note the contrast:
 - a) **The Who's** version, once you listen to it, is creepy.
 - b) **The Bad Sequence** version, once you listen to it, is fun.
- 2) I know the names of the singer, backup singers, and even the writer of **The Bad Sequence** version. For **The Who's** version, I had to look all that up on ChatGPT and it got kept telling me **Who's on First** since I had just used it to do the other HW problem.
- 3) All of the members of **The Bad Sequence Band** know Ramsey theory, and one member is an expert. Megan.

Reasons to Prefer **The Bad Sequence** Version

- 1) Note the contrast:
 - a) **The Who's** version, once you listen to it, is creepy.
 - b) **The Bad Sequence** version, once you listen to it, is fun.
- 2) I know the names of the singer, backup singers, and even the writer of **The Bad Sequence** version. For **The Who's** version, I had to look all that up on ChatGPT and it got kept telling me **Who's on First** since I had just used it to do the other HW problem.
- 3) All of the members of **The Bad Sequence Band** know Ramsey theory, and one member is an expert. Megan.
By contrast, only one member of **The Who** knows Ramsey Theory

Reasons to Prefer **The Bad Sequence** Version

1) Note the contrast:

a) **The Who's** version, once you listen to it, is creepy.

b) **The Bad Sequence** version, once you listen to it, is fun.

2) I know the names of the singer, backup singers, and even the writer of **The Bad Sequence** version. For **The Who's** version, I had to look all that up on ChatGPT

and it got kept telling me **Who's on First** since I had just used it to do the other HW problem.

3) All of the members of **The Bad Sequence Band** know Ramsey theory, and one member is an expert. Megan.

By contrast, only one member of **The Who** knows Ramsey Theory and he only knows it for graphs, not hypergraphs.

Reasons to Prefer **The Bad Sequence** Version

- 1) Note the contrast:
 - a) **The Who's** version, once you listen to it, is creepy.
 - b) **The Bad Sequence** version, once you listen to it, is fun.
- 2) I know the names of the singer, backup singers, and even the writer of **The Bad Sequence** version. For **The Who's** version, I had to look all that up on ChatGPT and it got kept telling me **Who's on First** since I had just used it to do the other HW problem.
- 3) All of the members of **The Bad Sequence Band** know Ramsey theory, and one member is an expert. Megan. By contrast, only one member of **The Who** knows Ramsey Theory and he only knows it for graphs, not hypergraphs.
- 4) I prefer the **The Bad Sequence** version since I'd rather hear about the infinite hat game than about a dysfunctional relationship.

A Neutral but Insightful Comment

A Neutral but Insightful Comment

As a mathematician I prefer **The Bad Sequence** version.

A Neutral but Insightful Comment

As a mathematician I prefer **The Bad Sequence** version.

As a musician I prefer **The Who's** version.

Reasons to Prefer **The Who's** Version

Reasons to Prefer **The Who's** Version

- 1) **The Who's** version had far better backup singers and music.

Reasons to Prefer **The Who's** Version

- 1) **The Who's** version had far better backup singers and music.
- 2) **The Who's** version was more realistic:

Reasons to Prefer **The Who's** Version

- 1) **The Who's** version had far better backup singers and music.
- 2) **The Who's** version was more realistic:
 - a) To see if your girlfriend is cheating you only have to look at a finite number of places. So you can do it looking **miles and miles and miles**.

Reasons to Prefer **The Who's** Version

- 1) **The Who's** version had far better backup singers and music.
- 2) **The Who's** version was more realistic:
 - a) To see if your girlfriend is cheating you only have to look at a finite number of places. So you can do it looking **miles and miles and miles**.
 - b) In the infinite hat game you need to look at an infinite number of places.

Reasons to Prefer **The Who's** Version

- 1) **The Who's** version had far better backup singers and music.
- 2) **The Who's** version was more realistic:
 - a) To see if your girlfriend is cheating you only have to look at a finite number of places. So you can do it looking **miles and miles and miles**.
 - b) In the infinite hat game you need to look at an infinite number of places. Thats bullshit man!

Reasons to Prefer **The Who's** Version

- 3) Note the contrast:
 - a) **The Who's** version paid for Yasmine to be in REU-CAAR. Yeah!
 - b) **The Bad Sequence** version paid for Bill's Cayman island account. Boo!
(Bill: I wish!)

Bad Sequence Gets the Last Word

Bad Sequence Gets the Last Word

I surely (I'm not calling you Shirley) prefer our version better!! I support my claim as follows:

Bad Sequence Gets the Last Word

I surely (I'm not calling you Shirley) prefer our version better!! I support my claim as follows:

1) **The Who** are very famous so it makes sense if they have all the backup singers and musical accompaniment, however we also sound really good even without any cool technology or music!

Bad Sequence Gets the Last Word

I surely (I'm not calling you Shirley) prefer our version better!! I support my claim as follows:

- 1) **The Who** are very famous so it makes sense if they have all the backup singers and musical accompaniment, however we also sound really good even without any cool technology or music!
- 2) We do Ramsey AND we can sing! **The Who** can sing but I doubt they can do Ramsey.

Bad Sequence Gets the Last Word

I surely (I'm not calling you Shirley) prefer our version better!! I support my claim as follows:

- 1) **The Who** are very famous so it makes sense if they have all the backup singers and musical accompaniment, however we also sound really good even without any cool technology or music!
- 2) We do Ramsey AND we can sing! **The Who** can sing but I doubt they can do Ramsey.

Oh. I just learned that one of them understands Ramsey on Graphs.

Bad Sequence Gets the Last Word
