

The Department of Computer Science is now looking for first or second year UMCP undergraduates, for the position of the position of Student Systems Staff. We are hiring for part-time (15-20 hrs/wk) positions.

We maintain a large network of Linux, Windows, and Sun Solaris systems for use primarily by faculty, staff, and graduate students in the Department of Computer Science.

Interviews will be conducted between October 8 and October 11, and I expect new hires to be able to begin work by October 22. Your schedule will be flexible enough to accomodate classes and exams, but you *\*must\** be able to work at least 15 hours a week between 8 am and 6 pm Monday through Friday to be useful.

Position Responsibilities:

Basic UNIX and MS-Windows system administration

- account installation/deletion
- backing up/restoring files on servers and workstations
- user support
- troubleshooting technical problems
- writing custom software
- hacking third-party software to behave properly
- installation/configuration/maintenance of workstations
- network installation/maintenance
- whatever else needs doing

Qualifications required:

- You **MUST** be a full-time UMCP undergraduate, in good academic standing.
- Self-motivated
- Independent problem-solving ability
- Responsibility
- Quick learner
- A desire to work in a systems administration role

Extensive experience is not a prerequisite for this position, but you should be comfortable using UNIX and Windows systems, have some programming experience, and the ability to navigate the system and internet without supervision. Troubleshooting skills and experience are a big plus.

This is an excellent opportunity to learn how UNIX, windows, and networked systems work and interact, and get real work experience while you're at it.

If you have left a resume or application with the department in the past, please submit a current one to be considered for the position at this time.

PLEASE SUBMIT YOUR RESUME ELECTRONICALLY. Email it to studentjob@cs.umd.edu. ASCII, PDF, Postscript, or Microsoft Word format resumes are preferred. All resumes must be received by 5:00 pm Thursday, October 4.

For more information, send e-mail to studentjob@cs.umd.edu.
