

Lab 3 – Building an Activity

Programming the Android Platform

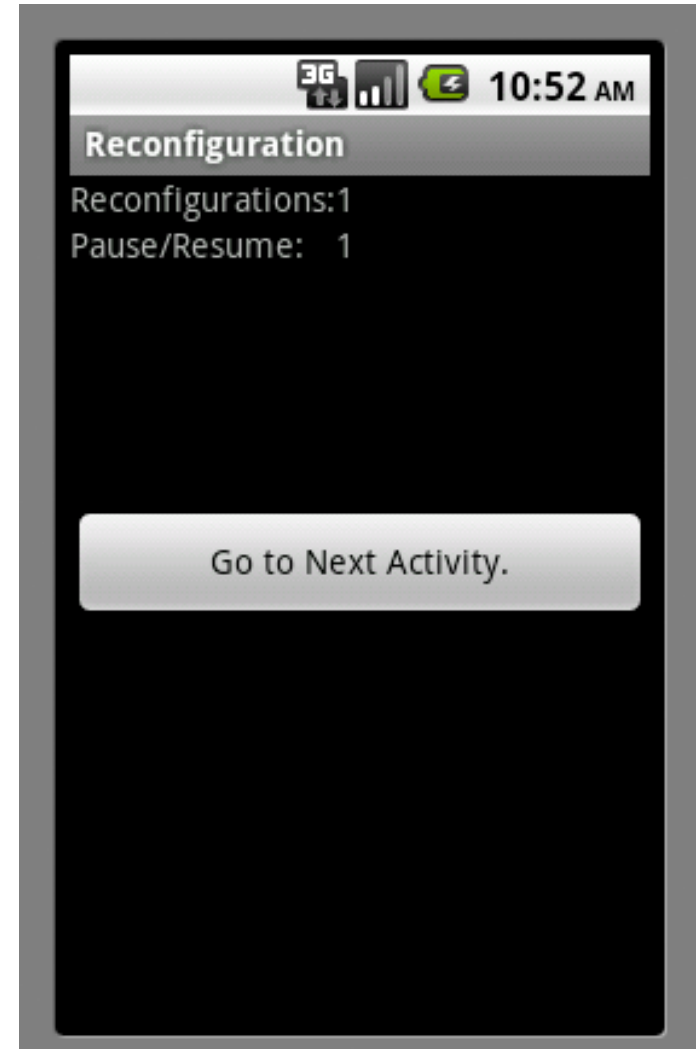

Lab Assignment

Main screen shows

- # of times screen has changed orientation

- # of times onResume() called

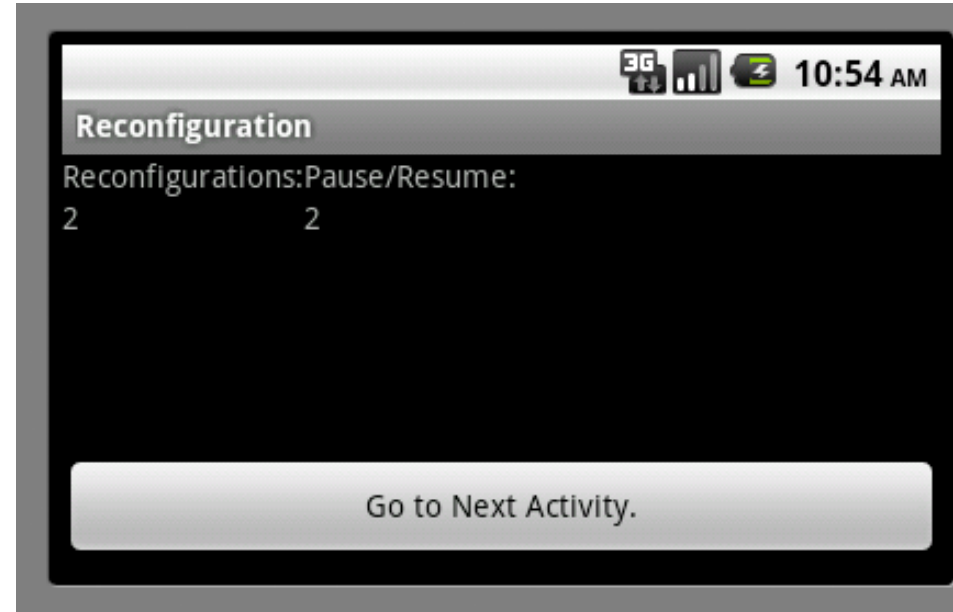

Button starts new Activity (that does nothing)

After Orientation Change

Ctrl-F12 in emulator
Increments
reconfiguration &
onResume counts

Can also use numeric
keypad 7 and 9

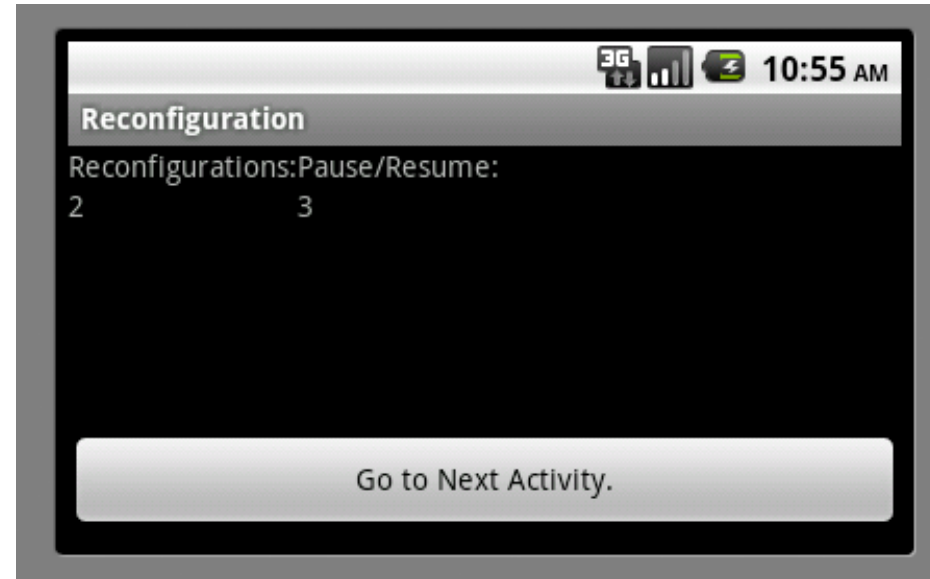

Click “Go To Next Activity” Button

Starts new Activity
Hit back button to
return to main
Activity

Back Button Hit

Increments only
onResume() count

After Further Orientation Change

Increments both counts
