Welcome to DCC
Who WE are.

- Evan Golub (Computer Science)
- Krista Caballero (Art)
- Jarah Moesch (American Studies)
- Leah Flake (Engineering/Policy)
What is DCC?

In many ways it will be “what we make of it”.

Topics this semester will include:

– Robotics
– Algorithms and Programming
– Crowdsourcing
– Gaming and Counter-Gaming
– Privacy
– Ethics

Just to name some…
HDCC 105 – Syllabus

• Assignments
• Co-curricular activities
• Team project
• Re-grade policy
• Academic honesty
• Off-site accounts
HDCC 105 – Web Sites

• Main site
• Use of other campus sites like ELMS
• Use of other sites like Flickr or Google
Life at UM and DCC

- University versus Trade School (why are you at a university?)
  - Try things you know nothing about, aim for diversity and breadth.
- Time management (otherwise known as “sleep is important so think twice about pulling all-night’ers”).
- Why are you in DCC? What do you hope to get out of it?
- What energies do you think you should have to put into it (in and out of class)?
