CMSC131

Javadocs

Javadocs: Class Level

/**
 * This is where I will describe the
 * purpose of the class as a whole.
 * *
 * @author Evan Golub
 * @version 1.0
 * @see SomeOtherClassIfAppropriate
 */
Javadocs: Method Level

/**
 * Description of what the single method
 * actually does.
 *
 * @param xyz The purpose of xyz.
 * @param abc The purpose of abc.
 * @return The return value's type.
 * @throws Exception that might be thrown.
 */

Try it on terpconnect.umd.edu

- Log into terpconnect.umd.edu again.
- We'll use the same files as from ExampleTwo in the Java command line notes.
- Type the following to generate the Javadocs from those files:
  ```
  cd ~
  javadoc ExamplePackage
  ```
- The result will be many web pages which if viewed online would look like the ones currently at http://terpconnect.umd.edu/~egolub/
