

Assignment 0

—

You must submit it electronically to ELMS. This is not a group assignment. Everyone needs to submit his/her own solution. This is a not-for-credit but required assignment.

Problem 1. Please write down your group member. Each group is of size 2-3. Any exception should be approved by the instructor.

—

Problem 2. Briefly introduce about yourself (e.g., background, Phd/Master, which year in the graduate program, research interest, etc.).

—

Problem 3. What topic(s) are you most interested in from this course? What topic(s) do you want to learn from this course?

—

Problem 4. Do you expect to use anything learned from this course in your future work/research? If yes, can you briefly explain?

—
