

Research designs

Designs	HCI example	How could you use this method for your project?
Experimental method		
Correlational Observations		
Questionnaires		
Archival research		
Ethnography		
Naturalistic observation		
Case history		
Other (specify)		
.....		

Experimental Method

Variable type	Circumstances	Behaviors
Independent variables		
Control variables		
Random variables		
Variables randomized within constraints		
Confounding variables		
Internal validity		
History		
Maturation		
Selection		
Mortality		
Testing		
Statistical regression		
Interaction with selection
