

In Class Exercise – Parser Tables

Tue, Feb 16, 2016

1. Using the parser table on slide 38 (which should be on the screen), parse the token sequence `INT + (INT + INT)`. (Write `N` instead of `INT` and `$` instead of `EOL` to save time.) You probably won't need all the space in the table.

Stack	Input	Action
	N+ (N+N) EOL
