& additional monthly weekend meetings during the school year

What?
Use different languages to create Games, Web Pages and Robots
Learn about the Internet:
  Computer Security and Safety
First year curriculum: Scratch, Lego
Mindstorms, Weebly, Keyboarding,
Microsoft Word, Cryptology, Number Systems etc.
Hands-on learning activities through team work, field trips, visits with computing professionals
A Safe Supportive Learning Environment

Details:
• The first year is for students who are just finishing 6th grade (limited number of positions available for those currently finishing 7th or 8th grade to join the other cohorts- June dates).
• Designed as a 3 year program where each cohort returns the following summer to learn more advanced skills - meeting once a month through the school year to maintain those skills.
• There is a charge of $200 for the two weeks of the summer camp – no additional charge for the meetings during the school year.
• Financial Assistance is available for those with displayed need.
• See us: Students present their results at Maryland Day – April 25, 2015
