Form A - High Level Data Flow Diagram

Reviewer Name: Document Reviewed:

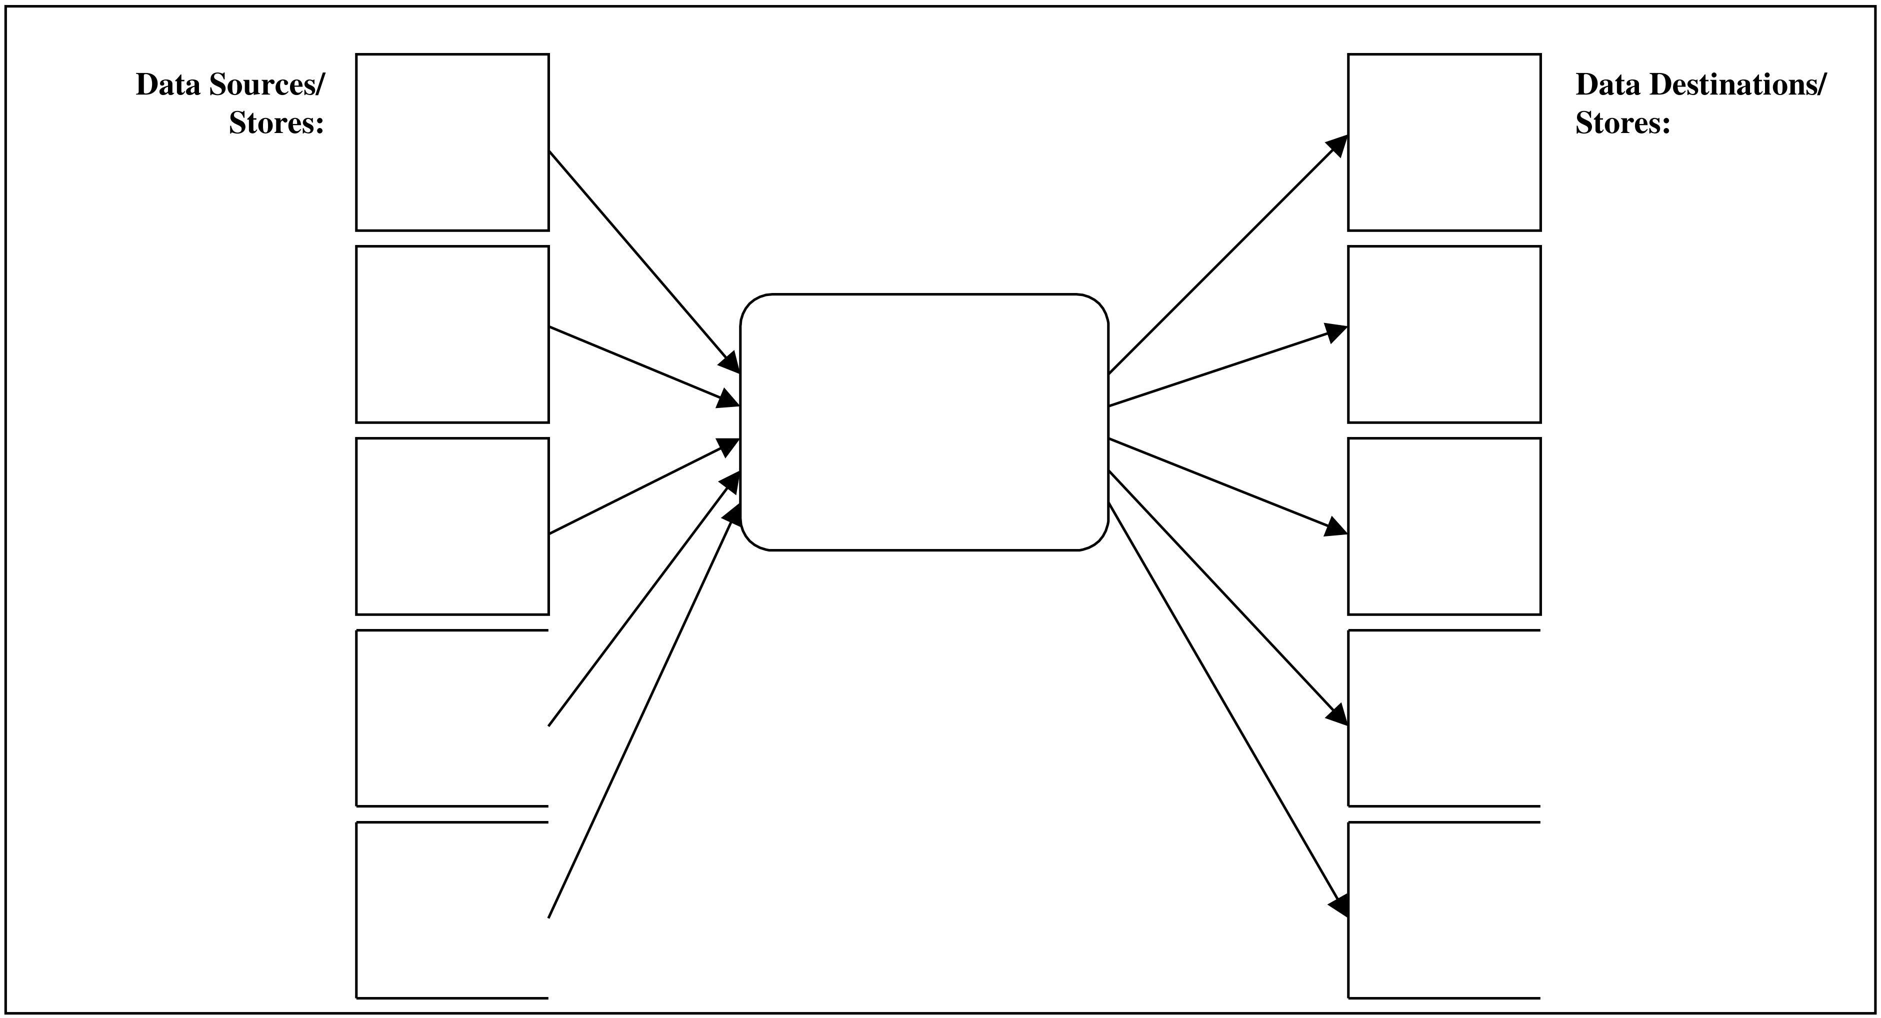
Create a high-level data flow diagram of the system illustrating the data sources, stores, and destinations for the system, and the main processing phase. Use the following notation:

(Process) Rounded box: Aprocessing phase or system activity.

(Data store) Open box: File or other data store

(Data source/ destination) Closed box: Data source or destination

(data) Arrow: Flow of data



Form B - Lower-Level Data Flow Diagram

Reviewer Name: Document Reviewed:

Create a data flow diagram which refines a higher-level process. To be consistent, it is important that the inputs and outputs of this diagram are the same as those for the higher-level process. Use the following notation:

(Process)	Rounded box: Aprocessing phase or system activity.	(Data store)	Open box: File or other data store	(Data source/ destination)	Closed box: Data source or destination	(data) →	Arrow: Flow of data
