Form E7 – Reading Experiment/End

Reviewer ID: ____________ **Date:** ________

This form asks you a few questions about the experiment itself after it is conducted.

General Questions

1. Please assess the explanations before and throughout the training session. [Please mark with an x in the scale]

	0	1	2
Training, explanation	not enough	enough	too much

2. Did you need more time than allocated for reviewing the documents?

Yes	
No	

If yes, please indicate how much time would be sufficient for each document:

3. Would you prefer to review just one document each day?

Yes	
No	

4. Did you understand the reading scenario technique after the training sessions? [Please mark with an x in the scale]

	0	1	2	3
Understanding	none	some	most	all

5. Was there enough training for the reading scenario you got? [Please mark with an x in the scale]

	0	1	2
Training	not enough	enough	too much

6. Did the reading perspective scenario on day 2 help you find defects? [Please mark with an x in the scale]

	0	1	2	3
Scenarios	no help at all	little help	help	help a lot

7. Did you follow the reading scenario guideline completely?

	0	1	2
Follow guidelines	not at all	partially	completely

8. Please describe how you used the scenario together with the requirements documents!

9. Does the reading scenario miss anything that is important for the specific perspective?

10. Should the questions on the scenarios be more specific in order to provide more help for reading the document according to the relevant perspective?

Yes	
No	

If yes, how?:

11. Did you find it difficult to review the documents from a perspective different from your usual one? [If you got the same perspective as your usual role, mark 'not relevant']

Yes	
No	
Not relevant	

If yes, how?:

12. Do you think the perspective–based technique is more or less effective (in the sense that more defects are found) than the technique you usually use? [Please mark with an x in the scale]

	0	1	2
Technique	less effective	equally effective	more effective

13. What do you think about the forms (E0-E7) used throughout the experiment?

E0____

E1____

E2____

E3____

E4____

E5____

E6____

E7____

14. What do you think about the size and application domain of requirements documents that are used throughout the experiment? [Please mark with an x in the scale]

    (a) Parking Garage

	0	1	2
Size	too small	OK	too large

Appropriate application domain?:____________________________

(b) ATM System

	0	1	2
Size	too small	OK	too large

Appropriate application domain?: ______________________________

(c) NASA document A

	0	1	2
Size	too small	OK	too large

Appropriate application domain?: ______________________________

(d) NASA document B

	0	1	2
Size	too small	OK	too large

Appropriate application domain?: ______________________________
