

Abhijit Ogale
Physics 262
Spring 1999

- Good knowledge of material. Needs to speak up, say something about the lab at the beginning.
- Abhijit is an excellent TA who is willing to assist/tutor whenever he is asked.
- He did a hell of a job. Helped me whenever I needed it. Explains concepts and procedures thoroughly.
- The TA was very helpful throughout the sem. He needs a raise.
- Does not explain reasons for some phenomenon. Sometimes directions are not clear, but otherwise is always helpful.
- During lab our TA was extremely helpful; however due simply to the # of students, more than one TA might be helpful if as many students will be in class.
- Abhijit was a very helpful TA. He understood all of our questions and could answer them clearly.
- Very knowledgeable. Friendly. But needs to talk louder – perhaps due to comfortability level w/ english.
- He is one of the best TA's I've ever had!
- This lab is horrible. No instruction given, no help, exercise in frustration.
- Abijit has been a very good TA, in guiding us through the labs even through the many unexpected changes put onto us by Dr. Boyd.
- Very good. Awesome. Lots of help. Best TA one could have. Dr. Boyd sucks my left nut though. And my right one. And what's in between.
- Our TA provides excellent advice and direction in this course.
- He was generally friendly and helpful (unlike the grading of the culminating labs).
- Good TA. Dr. Boyd is not good.
- TA was helpfull in answering questions during the lab, but we need at least 2 TA because a lot of times we have to wait for a long time before he can answer our questions.
- He was very helpful, but sometimes I had a lot of difficulty understanding him.
- Abhijit does an excellent job. He's very knowledgable on the course material and always willing to help.
- He was patient w/ us and our questions and helped whenever he was able to which was most of the time.
- I really think that Abhijit has been a really helpful TA. He never made anyone in the lab feel lower than him. He made sure to help everyone and treated us as equals. Not only was he helpful, respectful, but also very polite. I consider as one of the best TA's this Physics department has.

- The TA provided helpful assistance when certain parts of the lab experiments weren't clear enough. He was able to communicate ideas and theories that clarified difficult aspects of the experiments effectively. He also help maintain a suitable atmosphere for learning.
- Very good example for other TA's. Very helpful and dedicated. Cares if the students understand the principals of the lab procedures @ all times.
