AERON CHAIR - FULLY LOADED \$745! FREE Shipping!

► **Herman Miller "AERON" Chair**

Through advanced ergonomic design, the aeron chair sets a new standard to comfortable, healthful seating. Quite simply, it does what office seating has never before done. The Herman Miller aeron chair is designed to fit. Office chairs are traditionally designed to accommodate an average-sized person. Such chairs comfortably fit 50-60 percent of today's user population. The aeron chair comes in three **sizes**, small (A), medium (B) and large (C) - all with identical performance capabilities. The Pellicle suspension provides healthful support in all sitting postures, as the patented Pellicle material equitably distributes body weight on the seat and back. The material lets air pass through for comfort in any work environment. The distinctive appearance of the Herman Miller aeron chair is an expression of its unique capabilities and innovative materials.

Fully Loaded: Complete with two stage pneumatic tilt limiter and seat angle, padded adjustable arms and an adjustable lumbar support.

Three **sizes**: A, B or C.

Help

Your Aeron Chair from ComfortLiving is covered by a 90 Day Limited Warranty. ComfortLiving will repair or replace (at our discretion) at no charge, any noticeable defect in the chair that occurs during normal use due to a defect in material or workmanship. This warranty sets forth all remedies available with respect to defective Aeron chairs. ComfortLiving will not incur any shipping charges associated with defective chairs - customer must return product at own expense. In the event a chair is defective upon receipt (within 7 days), ComfortLiving will waive return shipping charges.

*We are not an authorized reseller or distributor of Herman Miller products.
