

CMSC 435 (Section 0201) : Quiz 3

1. **Please remember to write your name and SSN on this sheet before handing it in.**
2. Write (Sequential, Synch-and-Stabilize or both) next to each of the following process features as applicable:
 - Frozen spec, detailed design before building the product (**sequential**)
 - Build all pieces of a product simultaneously (**sequential**)
 - Continuous customer feedback during the development process (**synch-and-stabilize**)
 - Parallel development and testing (**synch-and-stabilize**)
 - Aiming for feature and product perfection in each cycle (**sequential**)
3. What are the 3 phases of the synch-and-stabilize process?

Planning, development and Stabilization.
4. What is the main advantage of the synch-and-stabilize process?

Factors in customer feedback. Allows for greater creativity by letting developers work in small teams.
