Application for Undergraduate Independent Study

   In order to apply for an independent study in the Department of Computer Science (CMSC298A/498A), please complete the following form and return it, with your faculty sponsor's signature, to the Computer Science Education Office (A.V. Williams 1119). Along with this application, you are expected to write a proposal detailing your independent study. The Education Office will review your application and notify you once you have received permission to register for the course. Please be sure to examine the guidelines that accompany this form.
