

CMSC433, Fall 2001
Programming Language
Technology and Paradigms
www.cs.umd.edu/class/fall2001/cmsc433

Adam Porter
August 30, 2001

The Waitlist (if any)

- I expect to take in:
 - CS undergraduate majors with GPA = 3.25 and 330 grade of B or higher
 - CS graduate students
- Send me a note
 - with GPA, grade in CMSC 330, other info

CMSC 433, Fall 2001 - Adam Porter

2

Office hours

- Professor (aporter@cs.umd.edu)
 - Tu 2:30-3:30PM, Wed 10:00-11:00AM, Th 2:00-4:00PM
- TA: Jiwhang Yeo (jyeo@cs.umd.edu)
 - Wed 1:00-4:00PM
- Always posted on class webpage:
www.cs.umd.edu/class/fall2001/cmsc433
 - Or by appointment
- We will respond to questions only IF you provide 2 plausible answers to your question

CMSC 433, Fall 2001 - Adam Porter

3

Projects

- Projects due at 6pm
 - by Unix time of day
 - late deadline of next sunrise, 20% off
 - you *must* submit a good-faith effort by sunrise
 - you can be failed for the course if you do not
- Read the newsgroup – csd.cmsc433
 - Only visible from inside UMD
 - Post public questions here, instead of using email
 - We will read regularly, and respond, IF your posting contains 2 plausible answers to your question

CMSC 433, Fall 2001 - Adam Porter

4

Projects (cont.)

- Class accounts will be emailed
 - to the email account you've registered with UMEG
 - so make sure you forward that account to wherever you read email
 - if you don't receive an account by next class, talk to me

CMSC 433, Fall 2001 - Adam Porter

5

submit

- Use online submit program to submit projects
 - e.g., submit 1 p1.h p1.cc
 - provide list of file names, not a tar ball
 - link to the submit program in grading account
~ap43302/bin/submit
- Submit early and often
 - Can provide recovery from previous submit

CMSC 433, Fall 2001 - Adam Porter

6

Project Commentary

- You will be emailed two other submissions; respond with commentary on each
 - you will be graded on the usefulness of your commentary

CMSC 433, Fall 2001 - Adam Porter

7

Topics

- C++
- Java
- Component software
 - COM, Java Beans
- Multithreaded programming
- Distributed programming
