

Announcements

- Quiz #1 will be on Friday
- **NEVER PUT A GRADED ASSIGNMENT ON ANY WEB SERVER**
(Unless we specifically tell you to.)
- Today is the last day for “schedule adjustment”

Images

Use the `img` tag with attribute `src`:

- **Relative URL** for an image in the same folder

```

```

- **Absolute URL** for any image

```

```

- Works for: `jpg`, `gif`, `tiff`, `png`, `bmp`

Attributes for Images

- `alt` – label used in case browser is not rendering pics
REQUIRED BY THE VALIDATOR!
- `height/width` – size for pic. (Default unit is pixels.)

```

```

Example: Images.html

Challenge Exercise

Welcome to Fawzi's page!

Heading

1. Make a page like this
2. Put it on the web server
3. See if it validates

Silly picture of yourself

Unordered List of two things: links & Teams

Links that work!

- Some links I like:
 - A. [Facebook](#)
 - B. [Cycling News](#)
 - C. [Nature Photography](#)
- My favorite teams:

Pictures that are clickable links to team home pages
