- Midterm on Monday
- Project **late** deadline is tonight at 11:00PM

Return Quiz #2

JavaScript Practice

Write a complete web page that prompts the user to enter 'A' to see an alert box, or 'P' to see a paragraph. Either display an alert box that says "ALERT!" or a paragraph that says "PARAGRAPH!" depending on their choice.

JavaScript Practice

**Write a JavaScript program that asks the user for their score on an exam.
(Assume they will enter a numerical answer). Display a paragraph with
content determined by their response:**

If they entered a value less than 0 or greater than 100, display “Impossible”.

If they entered a value from 70 to 100, display “Pass”.

Otherwise display “Fail”.

**(You only need to include the code that would be between the <script>
opening and closing tags.)**
