

# Announcements

- Project #1 has been posted
- Quiz #1 will be on Friday

# Nesting Elements

## Details:

1. Block level elements can contain inline elements or other block level elements

**Exception: Paragraphs cannot contain other block elements**

2. Inline elements can contain other inline elements
3. You can't put a block level element inside an inline element

# Project #1 Overview

- Project Description
- Submitting the Project
  - All of your files must be in the same folder
  - Zip the folder
  - Upload the zip file to the “submit server”
  - Download and confirm the submission

# Challenge Exercise

On the other screen is a webpage that I created. The style is terrible! (We need to learn about CSS.)

1. In Komodo Edit, try to create a page with the exact same elements as mine, but with content about yourself.
2. Try validating your code. If it doesn't pass the validator, you need to fix it.
3. Put your page on TerpConnect.
4. Come to the computer in the front of the room and type in your URL so that we can see your work!
