## In Class Exercise - Rightmost derivation

Sep 6, 2018

1. For the following grammar, write a rightmost derivation for INT + (INT + INT) EOL. (Write N instead of INT and $\$$ instead of EOL to save time.)

$$
\begin{aligned}
\text { main } & \rightarrow \text { expr EOL } \\
\text { expr } & \rightarrow \text { expr }+ \text { term } \\
\text { expr } & \rightarrow \text { term } \\
\text { term } & \rightarrow \text { INT } \\
\text { term } & \rightarrow \text { (expr })
\end{aligned}
$$

## In Class Exercise - Parser Tables

Sep 6, 2018

1. Using the parser table on slide 38 (which should be on the screen), parse the token sequence INT + (INT + INT). (Write $N$ instead of INT and $\$$ instead of EOL to save time.)

| Stack | Input | Action |
| :--- | :--- | :--- |
|  | $\mathrm{N}+(\mathrm{N}+\mathrm{N})$ EOL |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
