

CMSC 122 Quiz 4 Worksheet

The next quiz for the course will be on Wed, Dec 1. The following list provides additional information about the quiz.

- The quiz will be posted before class on **Wed. Dec 1.**
- The quiz will be on the computer. You will write the JavaScript code for an event-driven webpage.
- You can use your notes and examples.
- You can ask classmates general questions, but no specific implementation questions. **NO SHARING CODE.**
- You will submit to the submit server. **You must submit before 5 PM on Friday Dec 3.** There is no late period.
- **Class on Wed. Dec 1. will be optional.** I will simply show you how the finished webpage should operate, but will not lecture so you can have the 50-minute lecture time to complete the quiz. If you plan to come to class, bring a laptop. If you prefer to work on it outside of class, that is fine too. Just make sure you have a submission **before 5 PM on Friday Dec 3.**
- Regarding Piazza - Feel free to post questions in Piazza regarding clarification on the quiz, but no code.
- To prepare for this quiz, I would recommend you look over all the Event-driven code examples so you can easily locate what you need for the quiz.
