

Small Typo on CMSC 131 Exam 3.

On page 6, in the main method you see:

```
Integer [][] arr1 = new Integer[3][];  
arr[0] = null;  
arr[1] = null;  
arr[2] = new Integer []{0,null,8,15};
```

The typo is that the assignment should be made to arr1 not arr. So the correct version is:

```
Integer [][] arr1 = new Integer[3][];  
arr1[0] = null;  
arr1[1] = null;  
arr1[2] = new Integer []{0,null,8,15};
```

Everything else, including the output of [] is correct.
