

ANNOUNCEMENTS

❖ Quiz #3 on Friday

HANDLING ERRORS

- ❖ We can detect errors by using `window.onerror`
- ❖ Example: `ErrorHandler.js`, `Error.html`
- ❖ Let's introduce some errors in `Error.html`

PASSING DATA TO FUNCTIONS

- ❖ Reviewing passing by value with numbers.
 - ❖ Example: PassByValue.html
- ❖ How is an array passed to a function?
 - ❖ Example: PassReturnArrays.html
- ❖ Let's see a Memory Diagram.
- ❖ Memory Diagram
 - Tool we will use to illustrate the associations between variables and entities (e.g., objects, arrays, etc.).

FUNCTION PROTOTYPES

- ❖ What is a function prototype?
