

CMSC 216 Quiz 4 Worksheet

The next quiz for the course will be on Thu, Apr 25. The following list provides additional information about the quiz:

- The quiz will be a written quiz (no computer).
- The quiz will be in lecture.
- Closed book, closed notes quiz.
- Answers must be neat and legible.
- Quiz instructions can be found at <http://www.cs.umd.edu/~nelson/classes/utilities/examRules.html>
- **You must take your quiz in your assigned lecture section and not show up to a random discussion section. We will not grade quizzes taken in the incorrect section.**
- **Regarding Piazza** - Feel free to post questions in Piazza regarding the worksheet and possible solutions to problems.

This quiz will be about assembly. The quiz will include material covered by the assembly project and exercise and any information posted on the slides. You are not responsible for the material covered by slides #7 thru #11 of the lecture slides set <http://www.cs.umd.edu/class/spring2019/cmsc216/lectures/Week9/AssemblyIII-InstStack.pdf>.

You should be prepared to implement assembly code for a C function provided. The following cheat sheet will be provided with the quiz:

http://www.cs.umd.edu/~nelson/classes/resources/assembly_avr/assembly_cheat_sheet.shtml

This quiz will be worth at least 2% of your class grade. You can find sample questions in previous exams posted in grace. We have no further practice material.
