CMSC 132: Object-Oriented Programming II

Administrivia
Course Description

- Introduction to use of computers to solve problems
- Design and implement abstract data types: **List, Stack, Queue, Tree, Graph**
- Design, build, test, and debug software systems. Learn to use relevant tools
- Use object-oriented methods to create effective and efficient problem solutions
- Use and implement application programming interfaces (APIs)
- Programming done in Java
Course Is Not Just About Java

- May seem to focus on Java
  - All programming in Java
  - Many interesting Java language features

- Lessons intended to be general
  - Principles should apply to all languages
    - Ways of thinking about design
    - General ideas about software
  - Can translate skills to other languages
Assume You Already Know

- **Coding**
  - Variables, operators, loops, arrays
- **Basic object-oriented programming**
  - Classes, methods
- **Java**
  - Class libraries, exceptions
- **Tools**
  - Eclipse IDE, debugger
Organization

- Class Web Page

- Class Times:
  - Lectures: M/W/F 9:30-10:50am
  - Labs: Tu/Th 9:30-10:50am
Class Schedule

- The class schedule is available at:
- Midterms: 06/22, 07/20
- The final exam: 08/07/2017 class time
- Regarding make-ups for quizzes and midterms
  - Medical emergencies
Projects

- Around 8 projects
  - Evaluate design, coding, testing skills
  - Tries to involve interesting application areas

- Late policy
  - Projects due at 11:59 pm
  - Late submission with 10% penalty if submitted by 11:59pm of next day
  - Last submission before deadline will be graded.
  - No project accepted afterwards
  - Plan to complete all projects on time
Projects (cont.)

- Environment
  - Eclipse IDE
    - http://www.cs.umd.edu/eclipse/
  - Do not use your cmsc131 workspace (Create a new one)
    - In Eclipse select “File”→”Switch Workspace”
  - We are using a new repository (information will be provided later on)
  - Regarding Java version to use

- Automated submission & testing
  - Submit server
  - Maintains record of submissions
    - CVS repository
  - Release testing
    - Can evaluate project using real test cases
Grading

Based on

• Projects, quizzes/lab exercises, midterms, final

Point distribution (roughly)

• 40% Projects (8)
• 8% Lab Exercises / Group projects
• 6% Clicker Quizzes
• 26% Midterms (2)
• 20% Final Exam
• Meet the Professor: 1% extra

Available on-line

• https://grades.cs.umd.edu
Clickers

- Turning Technology clicker is **required**
  - Clicker ISBN is posted on the course webpage
  - You can get any of LCD, NXT, or QT2 models
Terpconnect Account

- We are going to use the grace cluster (linux.grace.umd.edu) for the CVS repository.
- Make sure you have a terpconnect account.
- Information on how to set the CVS repository is on the course site.
- If you don't have a terpconnect account, you can request one at:
  
  http://www.oit.umd.edu/new/

- Your TerpConnect account will be available within 1-3 days, that means you should activate it today. You should see the message TerpConnect Activated once your account is ready
Academic Honesty

- All individual assignments & exams must be done individually (except "open" assignments)
- Do not copy (or allow others to copy) your work in any way
- Submissions will be compared to submissions from current and previous semesters
- Cases of academic dishonesty will be referred to the University's Office of Judicial Programs
- Visit Student Honor Council website for more detailed explanation of academic dishonesty
Excused Absences

- Excused absence does not typically translate into project extensions

- Students requesting reasonable academic accommodations due to a disability must provide a letter from the Office of Disability Support Services. Scan and email the letter to me.

- Please see the syllabus for additional information
Course Advice

- Read the syllabus
- Start projects early
  - Make use of release testing if offered
- Ask questions
- Read book
- Attend lectures
- Attend labs
- Attend office hours
- Pay attention to re-grade deadlines
Regarding deadline to address grading concerns
  • It will be strictly enforced
  • At the end of the semester we will not address grading concerns for assignments/material already graded

Regarding Email/piazza

Regarding Electronic Devices
Miscellaneous

- If you are experiencing any problems that affect your performance in this class, please contact us immediately. Usually students wait until the end of the semester when probably nothing could be done.
- If for some reason you are considering dropping this course, see us first before making this decision.
- Work hard from the beginning of the semester in order to avoid the following type of messages at the end of the semester:
  - Is there any extra credit so I can boost my grade?
  - I am .1 from an A; can something be done?
