

CMSC 132 Quiz 5 Worksheet

The fifth quiz for the course will be on Wed, July 26. The following list provides additional information about the quiz:

- The quiz will be a written quiz (no computer).
- **The quiz will be in CSIC 115 NOT Antonov**
- Closed book, closed notes quiz.
- Answers must be neat and legible.
- The quiz has a maximum duration of 25 minutes.
- Please do not discuss a quiz after you have taken it.
- Piazza will be closed on days quizzes take place.

How to prepare for the quiz:

- Review the slides and examples on Threads. There will be some short answer questions on Threads and code writing that involves Thread. The assumption will be that you are comfortable with material we have covered prior to Threads (e.g. nested types, lambda expressions, data structures such a BST, ArrayList, LinkedLists, etc.).
- I have just one available old quiz on Threads that I can share with you. Sorry ☹. However, if you study the slides and posted examples, you should be well prepared for the quiz.
