

Learning Outcomes Assessment (LOA) Committee

September 28, 2025

Members Of The Committee

- ▶ Bahar Asgari
- ▶ Bill Gasarch (Chair)
- ▶ Clyde Kruskal
- ▶ Rob Patro
- ▶ Runzhou Tao

General Goal of The Committee

General Goal of The Committee

Produce a LOA Report.

General Goal of The Committee

Produce a LOA Report.

Deadline: October 2025.

General Goal of The Committee

Produce a LOA Report.

Deadline: October 2025.

Better to get it done either before the end of the spring or sometime over the summer.

Report on a Course

Report on a Course

Some discussion of the course.

Report on a Course

Some discussion of the course.

A) Learning Outcomes. Discuss this with the teacher.

Report on a Course

Some discussion of the course.

A) Learning Outcomes. Discuss this with the teacher.

B) Measures. Discuss how the course evaluates (e.g., 10 HWs, a project, and an final) and how we will measure if the learning outcomes were achieved (e.g., We looked at how the students did on a particularly indicative question on the final.)

Report on a Course

E) Actions. E.g., the project should be harder.

They also want something about DEI but it not clear where that goes or what to say about it. I will be meeting with the person above me later in the semester to discuss.

How Strict Is The Format

VERY- You MUST HAVE A,B,C,D,E as above.

Which Courses Are We Covering?

Which Courses Are We Covering?

I (as chair) pick Three AREAS to cover and try to rotate them.

Which Courses Are We Covering?

I (as chair) pick Three AREAS to cover and try to rotate them.
I then pick a course within each area.

Which Courses Are We Covering?

I (as chair) pick Three AREAS to cover and try to rotate them.

I then pick a course within each area.

I may add another course that I am particularly interested in looking into.

I then pick a course within each area.

I may add another course that I am particularly interested in looking into.

For the 2025 report the topics and courses are

- 1) Software: We'll do CMSC 131.
- 2) Writing Programs important within CS. We'll do CMSC 430 or CMSC 412.
- 3) Communication with both people on a team and with users (COMM). We'll do CMSC 434.
- 4) Extra: Bill wants to do CMSC/MATH 475. Combinatorics and Graph Theory.

In this meeting we will pin down who evaluates what.

Procedure

Procedure

- 1) Contact the teacher of the course and request access to his gradescope and a zoom meeting.

Procedure

- 1) Contact the teacher of the course and request access to his gradescope and a zoom meeting.
- 2) In zoom meeting discuss what the learning outcome is and what would be a good measure of that.

Procedure

- 1) Contact the teacher of the course and request access to his gradescope and a zoom meeting.
- 2) In zoom meeting discuss what the learning outcome is and what would be a good measure of that.
- 3) Look at the gradescope statistics or some other appropriate concrete measure, write that part of the report.

Procedure

- 1) Contact the teacher of the course and request access to his gradescope and a zoom meeting.
- 2) In zoom meeting discuss what the learning outcome is and what would be a good measure of that.
- 3) Look at the gradescope statistics or some other appropriate concrete measure, write that part of the report.
- 4) What you write up will eventually be in the final report that we put together.

Who Does What

Who Does What

The report must be in Word. Bill does not know Word but Rob Patro is a Word Wiz!

Who Does What

The report must be in Word. Bill does not know Word but Rob Patro is a Word Wiz!

We all give the parts of the report to Rob an he makes a Word document out of it. He already has the template. The first few parts Bill and Rob will work on.

Clyde will proofread final version and make sure it all goes together.

So who evaluates what courses?

Teams

Teams

Bill and Clyde will evaluate a course.

Teams

Bill and Clyde will evaluate a course.

Bill and Bahar will evaluate a course.

Teams

Bill and Clyde will evaluate a course.

Bill and Bahar will evaluate a course.

Bill and Runzhou will evaluate a course.

Now We Discuss Who Wants to Eval What

Now We Discuss Who Wants to Eval What

Software: CMSC 131.

Now We Discuss Who Wants to Eval What

Software: CMSC 131.

CS-IMP: CMSC 412 or 430.

Now We Discuss Who Wants to Eval What

Software: CMSC 131.

CS-IMP: CMSC 412 or 430.

Communication: CMSC 434. I suggest we evaluate Evan Golub's section. He has been on this committee and knows what we want to do.

PRO Learn more about other courses in the dept.

PRO Not much work.

PRO Matthias and Alan appreciate that we do this.

CON The report is pointless and makes no difference to anything. Think about it: Picking out ONE question on the final that encompasses THE LEARNING OUTCOME and just look at that. This is terrible science.
