

Tips On Being an REU Mentor

Mandatory

Mandatory

1. Be available. Respond to emails from your students, co-mentor, and director promptly.

Mandatory

1. Be available. Respond to emails from your students, co-mentor, and director promptly.
2. Some mentors use SLACK. There are probably other technologies you can use as well. The important thing is **not** which technology you use, but that you are available. (I am a Luddite who uses **email**.)

 - 3.1 For a **Grad Student** who will work **long term** you have the luxury of having them come up with their own questions.
 - 3.2 For an **Ugrad Student** who will work **short term** you **do not** have that luxury.
4. Always make sure your students have things to do: Reading, Writing, Rithmetic.

Do Not Ghost Your Students

This should go without saying but

Do Not Ghost Your Students

How Often to Meet With Your Students

How Often to Meet With Your Students

1. Before the program begins you should email them things to read or websites to browse. You should have a light zoom meeting.

How Often to Meet With Your Students

1. Before the program begins you should email them things to read or websites to browse. You should have a light zoom meeting.
2. Early on meet with them 2 or 3 times a week so you can set them in the right direction. Meetings can be on zoom.

How Often to Meet With Your Students

1. Before the program begins you should email them things to read or websites to browse. You should have a light zoom meeting.
2. Early on meet with them 2 or 3 times a week so you can set them in the right direction. Meetings can be on zoom.
3. Once they have things to do you can meet them less. Even so, once a week check in with them.

5. If you will be away then **tell your student** that you will be out of contact for a few day. (They should to the same if they will be away for a few days.)
6. Are people ever **out of contact for a few days** in our modern electronic age?

Co-Mentoring

Many of you are grad students who are co-mentoring with your advisor.

Co-Mentoring

Many of you are grad students who are co-mentoring with your advisor.

1. Have a well defined division-of-labors.

Co-Mentoring

Many of you are grad students who are co-mentoring with your advisor.

1. Have a well defined division-of-labors.
2. Typically the Professor has the vision and helps in setting up the project, but the grad students does more day-to-day work.

Co-Mentoring

Many of you are grad students who are co-mentoring with your advisor.

1. Have a well defined division-of-labors.
2. Typically the Professor has the vision and helps in setting up the project, but the grad students does more day-to-day work.
3. If the Grad Student has more day-to-day contact with the student and later the student wants a letter, best if its co-written by both of them.

3. Tell them to **Code this up**
4. Tell them to work on things that I am curious about.
See next slide.

Bill's Style (cont)

Here is something I do that I **do not recommend**.

Bill's Style (cont)

Here is something I do that I **do not recommend**.

I work on things, and have students work on things, that I am curious about.

Bill's Style (cont)

Here is something I do that I **do not recommend**.

I work on things, and have students work on things, that I am curious about.

That sounds good, but look at what I **don't care about**:

Bill's Style (cont)

Here is something I do that I **do not recommend**.

I work on things, and have students work on things, that I am curious about.

That sounds good, but look at what I **don't care about**:

1. I do not care if anyone else cares.

Bill's Style (cont)

Here is something I do that I **do not recommend**.

I work on things, and have students work on things, that I am curious about.

That sounds good, but look at what I **don't care about**:

1. I do not care if anyone else cares.
2. I do not care if what I am working on is already known.

Bill's Style (cont)

Here is something I do that I **do not recommend**.

I work on things, and have students work on things, that I am curious about.

That sounds good, but look at what I **don't care about**:

1. I do not care if anyone else cares.
2. I do not care if what I am working on is already known.
I may look into that later but its good to discover things for yourself even if they are already known.

So what should you do? Don't let grants-papers-interest be hard walls blocking some paths of research.

How Much Leeway To Give the Students

I said earlier that you need to give them problems to work on.

How Much Leeway To Give the Students

I said earlier that you need to give them problems to work on.
That is true.

How Much Leeway To Give the Students

I said earlier that you need to give them problems to work on.
That is true.
But

How Much Leeway To Give the Students

I said earlier that you need to give them problems to work on.

That is true.

But

1. Once they have a problem to work on they should be free to modify it.

How Much Leeway To Give the Students

I said earlier that you need to give them problems to work on.

That is true.

But

1. Once they have a problem to work on they should be free to modify it.
2. If they find a way to solve it that is NOT the way you told them to do, thats great!

How Much Leeway To Give the Students

I said earlier that you need to give them problems to work on.

That is true.

But

1. Once they have a problem to work on they should be free to modify it.
2. If they find a way to solve it that is NOT the way you told them to do, thats great!
3. Still- make sure they don't go in directions you **know** won't work.

What Will You Get Out Of Mentoring?

What Will You Get Out Of Mentoring?

1. You Might Get a Paper out of this. **Yeah**

What Will You Get Out Of Mentoring?

1. You Might Get a Paper out of this. **Yeah**
2. You Might Not Get a Paper out of this. **Boo**

What Will You Get Out Of Mentoring?

1. You Might Get a Paper out of this. **Yeah**
2. You Might Not Get a Paper out of this. **Boo**
3. Students will tell you they will keep working on it even after the program is over.

What Will You Get Out Of Mentoring?

1. You Might Get a Paper out of this. **Yeah**
2. You Might Not Get a Paper out of this. **Boo**
3. Students will tell you they will keep working on it even after the program is over. They may even believe it.
