

Advice for Final

1. The final is on May 12, 10:30AM, in our classroom.
2. When studying try to UNDERSTAND, not just memorize.
3. You can bring a sheet of notes 8.5 by 11, and you can write on both sides. My advice: Don't try to cram the entire course into the sheet.
4. When studying try to UNDERSTAND, not just memorize.
5. No phones, laptops, or calculating device allowed
6. When studying try to UNDERSTAND, not just memorize.
7. Go over the HW you handed in. Since you had ChatGPT do it for you, you might not really understand it. So go over it to understand it.
8. When studying try to UNDERSTAND, not just memorize.
9. TOPICS: On the slides page I have, or every slide packet, written either
NOT ON FINAL
or
FAIR GAME FOR FINAL
10. When studying try to UNDERSTAND, not just memorize.
11. Do not try to find my old HWs and exams in the hope that I will ask the same question on the final. If you want practice problems (1) make up variants of the HW, (2) the midterm, (3) the optional project, (4) the web.
12. When studying try to UNDERSTAND, not just memorize.
13. Work on the take-home part SOON so its not hanging over your head when you are studying for the in-class part.
14. When studying try to UNDERSTAND, not just memorize.
15. When studying if you have a question then you an ASK Bill or Leo or Piazza of a classmate. IF you ask the web or an AI make sure you UNDERSTAND and BELIEVE the answer— they are wrong sometimes.
16. When studying try to UNDERSTAND, not just memorize.
