5. (20 points) Help me make up a 456-Drinking game!

Here is an example of a drinking game in another context:

*When watching a James Bond Movie, (1) every time someone is killed, take a drink, (2) every time James Bond escapes certain death, take a drink.*

The game is meant to expose how repetitive something is.

SO, fill in the following and I will later compile a list for the class (after the final)

*In 456 everytime X happens, take a drink.*

Example: Every time Bill says *Alice and Bob have to up their game* take a drink.
