

Notes on Mystery Island 4: House Rules

1 Background

Mystery Island has been a success! So they are opening up a new branch called *Mystery Mountain*. Jane convinced Carlos to do it. Carlos has assembled a team for *Mystery Mountain* which all have counterparts on *Mystery Island*. The *Mystery Island* team are going to be participants in a *Mystery Mountain* Mystery. One difference: *Mystery Mountain* will have more high tech—cell phones that work locally.

Recently Emilia, in her day job as a psychologist working for the police, got Lonnie Alfred, a Psychologist who killed 7 people, to confess. Emilia fears that Lonnie has contacts in London who might do her harm. Hence she quit her job in London and has moved to Mystery Island Full time. Also Emilia is writing a book that is almost finished.

Emilia and Jason seem to be dating on some level.
