NSF, Zhu/Google, Iribe/Ocular, Winkler Foundation \$\$\$\$\$\$

ALL OF YOU! Without you there wouldn't be a program!

Your Advice on How to Make the Program Better

Your Advice on How to Make the Program Better

1. The Hat Problem: Students should have to wear hats.

Your Advice on How to Make the Program Better

1. The Hat Problem: Students should have to wear hats.
Bill's Response How about Virtual Hats?

Your Advice on How to Make the Program Better

1. The Hat Problem: Students should have to wear hats.
Bill's Response How about Virtual Hats?
2. The Egg Problem: Students should get real eggs.

Your Advice on How to Make the Program Better

1. The Hat Problem: Students should have to wear hats.
Bill's Response How about Virtual Hats?
2. The Egg Problem: Students should get real eggs.
Bill's Response Okay, but if you drop them, you clean it up.

Your Advice on How to Make the Program Better

1. The Hat Problem: Students should have to wear hats.
Bill's Response How about Virtual Hats?
2. The Egg Problem: Students should get real eggs.
Bill's Response Okay, but if you drop them, you clean it up.
3. The Forehead Problem: Students should have bits written on their foreheads.

Your Advice on How to Make the Program Better

1. The Hat Problem: Students should have to wear hats.
Bill's Response How about Virtual Hats?
2. The Egg Problem: Students should get real eggs.
Bill's Response Okay, but if you drop them, you clean it up.
3. The Forehead Problem: Students should have bits written on their foreheads.
Bill's Response Could be messy!

Your Advice on How to Make the Program Better

1. The Hat Problem: Students should have to wear hats.
Bill's Response How about Virtual Hats?
2. The Egg Problem: Students should get real eggs.
Bill's Response Okay, but if you drop them, you clean it up.
3. The Forehead Problem: Students should have bits written on their foreheads.
Bill's Response Could be messy!
4. The Muffin Problem: Students should get to eat real muffins.

Your Advice on How to Make the Program Better

1. The Hat Problem: Students should have to wear hats.
Bill's Response How about Virtual Hats?
2. The Egg Problem: Students should get real eggs.
Bill's Response Okay, but if you drop them, you clean it up.
3. The Forehead Problem: Students should have bits written on their foreheads.
Bill's Response Could be messy!
4. The Muffin Problem: Students should get to eat real muffins.
Bill's Response Next summer: 61 muffins for 19 people, cut so that everyone gets $\frac{61}{19}$ and the smallest piece is $\frac{313}{684}$.

Real Advice on How to Make the Program Better

Case 1a: If Program is in Person: Things I can Control

Real Advice on How to Make the Program Better

Case 1a: If Program is in Person: Things I can Control

1. Students should be on email lists to find out about other talks in the dept.

Real Advice on How to Make the Program Better

Case 1a: If Program is in Person: Things I can Control

1. Students should be on email lists to find out about other talks in the dept.
2. Stop calling Math Problems **A Fun Activity**.

Real Advice on How to Make the Program Better

Case 1a: If Program is in Person: Things I can Control

1. Students should be on email lists to find out about other talks in the dept.
2. Stop calling Math Problems **A Fun Activity**.
3. **3.1 Early on** Have a basic talk on **ML**.
3.2 Early on Have a talk on **how to do research**.
3.3 Later on Have a talk on **how to give a good talk**.

Real Advice on How to Make the Program Better

Case 1a: If Program is in Person: Things I can Control

1. Students should be on email lists to find out about other talks in the dept.
2. Stop calling Math Problems **A Fun Activity**.
3. **3.1 Early on** Have a basic talk on **ML**.
3.2 Early on Have a talk on **how to do research**.
3.3 Later on Have a talk on **how to give a good talk**.
4. Check in with the groups more often. Make it more clear that students can contact me at any time with issues.

Real Advice on How to Make the Program Better

Case 1a: If Program is in Person: Things I can Control

1. Students should be on email lists to find out about other talks in the dept.
2. Stop calling Math Problems **A Fun Activity**.
3. 3.1 **Early on** Have a basic talk on **ML**.
3.2 **Early on** Have a talk on **how to do research**.
3.3 **Later on** Have a talk on **how to give a good talk**.
4. Check in with the groups more often. Make it more clear that students can contact me at any time with issues.
5. The REU-CAAR and REU-EXERCISE talks: to many in a row.

Real Advice on How to Make the Program Better

Case 1b: If Program is in Person: The Mentors

Real Advice on How to Make the Program Better

Case 1b: If Program is in Person: The Mentors

1. Descriptions of the projects on the REU-CAAR website should have at least an 0.8 correlation with the actual projects.

Real Advice on How to Make the Program Better

Case 1b: If Program is in Person: The Mentors

1. Descriptions of the projects on the REU-CAAR website should have at least an 0.8 correlation with the actual projects.
2. Students should have well defined projects from the very beginning.

Real Advice on How to Make the Program Better

Case 1b: If Program is in Person: The Mentors

1. Descriptions of the projects on the REU-CAAR website should have at least an 0.8 correlation with the actual projects.
2. Students should have well defined projects from the very beginning.
3. The mentor should not split up the team.

Real Advice on How to Make the Program Better

Case 2: If Program is Virtual

Real Advice on How to Make the Program Better

Case 2: If Program is Virtual

1. Have students assigned to read a **light** book or watch a **Ted Talk** and get together and talk about that, for more sociability. Might even do if in person.

Real Advice on How to Make the Program Better

Case 2: If Program is Virtual

1. Have students assigned to read a **light** book or watch a **Ted Talk** and get together and talk about that, for more sociability. Might even do it in person.
2. Need better tech to simulate a blackboard.

Real Advice on How to Make the Program Better

Case 2: If Program is Virtual

1. Have students assigned to read a **light** book or watch a **Ted Talk** and get together and talk about that, for more sociability. Might even do it in person.
2. Need better tech to simulate a blackboard.
3. If program is virtual **warn** the students that she should be in the **Continental USA**. Apologies to Alaska and Hawaii.

Real Advice on How to Make the Program Better

Case 2: If Program is Virtual

1. Have students assigned to read a **light** book or watch a **Ted Talk** and get together and talk about that, for more sociability. Might even do if in person.
2. Need better tech to simulate a blackboard.
3. If program is virtual **warn** the students that she should be in the **Continental USA**. Apologies to Alaska and Hawaii. Bill wonders if this runs against anti-discriminatory rules.

Real Advice on How to Make the Program Better

Case 2: If Program is Virtual

1. Have students assigned to read a **light** book or watch a **Ted Talk** and get together and talk about that, for more sociability. Might even do if in person.
2. Need better tech to simulate a blackboard.
3. If program is virtual **warn** the students that she should be in the **Continental USA**. Apologies to Alaska and Hawaii. Bill wonders if this runs against anti-discriminatory rules.
4. Smaller breakout rooms for ~~Fun~~ **activities**.

Real Advice on How to Make the Program Better

Case 2: If Program is Virtual

1. Have students assigned to read a **light** book or watch a **Ted Talk** and get together and talk about that, for more sociability. Might even do if in person.
2. Need better tech to simulate a blackboard.
3. If program is virtual **warn** the students that she should be in the **Continental USA**. Apologies to Alaska and Hawaii. Bill wonders if this runs against anti-discriminatory rules.
4. Smaller breakout rooms for ~~Fun~~ **activities**.
5. If REU2022 is virtual (e.g., the DeSantos Variant spreads) then civilization will be close to the end, hence improving how REU-CAAR operates will be the least of our concerns.

THOUGHT QUESTION

We had:

- ▶ Talks by the mentors (in the first two week)
- ▶ REU activity once a week (usually Monday)
- ▶ Talks once a week (usually Wed)
- ▶ Two game nights
- ▶ Two Speed-Meetings nights
- ▶ Fairwell Talk (now!)

THOUGHT QUESTION

We had:

- ▶ Talks by the mentors (in the first two week)
- ▶ REU activity once a week (usually Monday)
- ▶ Talks once a week (usually Wed)
- ▶ Two game nights
- ▶ Two Speed-Meetings nights
- ▶ Fairwell Talk (now!)

Does this **interfere** with research?

THOUGHT QUESTION

We had:
