Physics 161-Section 0301  
Spring 2000

- Spoke softly but was a good teacher
- Excellent TA!
- Very Good
- Very good TA, always answered our questions, good at providing explanations+reviewing for tests
- Posted great exam reviews on the web.
- Speaks too softly, great TA
- Greatest TA EVER
- Abhijit is by far the best and most dedicated TA I have yet to meet. He deserves a raise or some form of recognition. I did not have any problems with this Indian accent.

Section 0302
- It was hard understanding in class but the TA was able to clarify the HW probs very well.
- All we did in section was go over the homework- he did it all for us-I didn't learn as much this way.
  He graded harshly, too
- Nice work
- Abhijit taught me everything I know about physics he should take over for Chen.
- His English could use a little work but that will come with time. I have no other complaints. I think he was a good TA.
- This is the best TA ever, he explains everything perfectly
- Talk louder
- He was cool
